

EASY TO USE

Cerumol[®]

Ear Wax Removal Drops

FOR EXTERNAL USE ONLY

DIRECTIONS FOR USE: Adults and children 12 years and over: After opening, discard cap and replace with dropper for the future use. Prepare a small cotton ball, the size of your thumb nail. Lie or sit down and tilt your head to the side. Use the dropper to put 5 drops into the ear canal. Plug the ear with the cotton ball moistened with Cerumol[®] but do not push it into ear canal to help keep the liquid in the ear canal. Remove the cotton ball after one hour or the next morning. Repeat 2 or 3 times a day for 3 days. Unless the ear wax is unusually hard, it should run out freely. If condition persists or gets worse, consult your physician.

Store at room temperature (15°C to 30°C).

CAUTION: Keep out of children's reach. Cerumol[®] should not be used by persons suffering from perforated ear drums, soreness, redness and swelling of the ear and ear canal, dermatitis, or eczema affecting the external ear. If in doubt, consult your physician. Cerumol[®] may cause a local irritation, redness and rash. If any of the side effects become serious or you notice any new side effects, stop use and consult a healthcare practitioner. Do not use more than 3 days without talking to your physician. After the dropper is inserted, use within 6 months. **Ask your physician or pharmacist before using Cerumol[®] if you are pregnant, might be pregnant or are breast feeding.**

Cerumol[®] contains peanut oil. Patients allergic to peanuts, soya or any of the ingredients in the product should not use Cerumol[®].

Medicinal Ingredients: Paradichlorobenzene 2%, chlorbutol 5%, oil of terebinth 10%, peanut oil 57%.

Non-Medicinal Ingredients: O-dichlorobenzene, butoxyl.
