

Medical Science Liaison – Canada

Note: The use of the masculine gender includes the feminine and is employed solely to facilitate reading.

Can you imagine a career that touches the lives of people everywhere? Can you imagine yourself working in a fast paced and dynamic workplace where rapid decision making, entrepreneurial initiatives, customer service and community become your new vision? A vision that drives our growth and success...if so, then Paladin is the place for you!

Paladin Labs Inc., headquartered in Montreal, Canada, is a specialty pharmaceutical company focused on acquiring or in-licensing innovative pharmaceutical products for the Canadian market. Paladin has a focused marketing and sales organization that has helped it evolve into one of Canada's leading specialty pharmaceutical companies. Paladin Labs is an operating company of Endo International plc, a highly focused generics and specialty branded pharmaceutical company.

We are a dynamic and fast growing organization. Paladin is constantly looking for great people to contribute to our growing business. We believe in empowering our employees by giving them the freedom to raise new ideas and encourage decision making in an environment that fosters the growth and development of each individual. Paladin's culture is committed to building our business as well as our community, helping others, encouraging integrity and inspiring people to make a difference.

Position Summary

The Medical Science Liaison (MSL) represents Paladin's high scientific and ethical standards to the customers. They ensure the appropriate and safe use of the products through a good understanding and knowledge of our products by the customers. The MSL is also a key resource to other Paladin staff for scientific and medical science and practice knowledge. The position also ensures compliance in terms of education, training, certification. The MSL contributes to the medical information service.

Territory includes key centers in Quebec and Ontario.

Specific Responsibilities

- Recognized by the Canadian healthcare providers as a key and expert scientific resource on the products and their use.
- Assure right and safe use of product(s) through high quality scientific communications and interactions.
- Plan, organize and participate in Medical Education activities.
- Organize and participate in Advisory Boards.
- Scientific support to company staff.
- Support for relevant clinical trials.
- Training and certification of physicians and pharmacists for the use of our products.
- Support to relevant professional, research and patients organizations.
- Medical information for customers including being an active responder and preparation of responses.
- "Development, support and management of key opinion leaders" and "Provide Medical support (training, certification, provision of medical information) to major treatment centers."

- Work closely with treatment centres to ensure that patient screening and treatment protocols are reflective of available clinical evidence.
- Participate in relevant Canadian or North American conferences.
- Ensure Controlled Distribution Program objectives are met.
